It is a strengthening tonic, pleasant to take, and the BEST BLOOD PURIFIER ever discovered, curing Scrofula, Syphilis, Rheumatism, weakness of the Kidneys, Erysipelas, Malaria, Nervous Disorders, Debility, Bilious complaints and diseases of the Blood, Liver, Kidneys, Stomach, Skin, etc.

THEN AND NOW.

In 1841 an assessment was levied on all employees of the civil service for a campaign fund to be used by the party in power. Daniel Webster, the Secretary of State, issued the following order:

The President is of opinion that it is a great abuse to bring the patronage of the General Government into conflict with the freedom of elections, and that this abuse ought to be corrected wherever it may have been permitted to exist, and to be prevented for the future. He, therefore, directs that the payment of any contribution or assessment of salaries or official compensation for party or election purposes, will be regarded by him as cause for removal. Persons employed under the Government and paid for their services out of the public treasury are not expected to take an active or officious part in attempts to influence the minds or votes of others, such conduct being deemed inconsistent with the spirit of the Constitution and the duties of public agents acting under it.

It will be allowed by Republicans that Daniel was sound and that his position was correct then and would be correct now.

EDITORIAL NOTES.

A cheap supply of oysters is being obtained by the Italians. The ground from which most of the oysters consumed in Southern Italy are taken is known as the "Mare Piccolo," or little sea, near Savante, at the land's end and familiarly known as the "heel of the boot." The system of cultivation is successful and simple. From April to November bundles of brushwood are submerged in the outer sea, and to these the spawn readily attaches itself. The brushwoods are then raised and those on which the tiny oysters have settled are submerged in the "Mare Piccolo," where, in about two years, they attain their full size.

Congressman Cassidy has proven himself an able and industrious member of the House of Representatives. He has worked for the best interests of his constituency, and the best part of it is he has accomplished all he has undertaken. The people of this section feel under obligations to Mr. Cassidy for the interest he has taken in our northern mail route.

At last accounts there were 14,000 applications for the 1,400 new clerkships created by Congress, and new ones coming in at the rate of 500 a day.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

The Sullivan and Tug Wilson Glove Contest.

NEW YORK, July 17.

The vicinity of Madison Square Garden was a perfect ocean of humanity, this evening, attracted by the announcement that within the walls of the garden Sullivan, the champion of America, and Tug Wilson, the champion of England, would have a glove fight. In the center of the building was a 44-foot ring, five feet above the floor. Sixteen thousand people were in the garden.

At 9:30 Wilson and Sullivan—the first accompanied by Arthur Chambers and George Holden and the latter by Billy Madden and Joe Goss—appeared in the ring. The betting at this time stood 100 to 75 in favor of Sullivan. Both were stripped to the waist. Harry Hill was chosen referee. There were four rounds to be fought under the Marquis of Queensbury rules, three minutes each, one minute rest, and ten seconds in case of being knocked down, for the fallen man to get up. If Wilson should fight four rounds Sullivan engaged to pay him \$1,000 and half the gate money.

Wilson holding \$1,000 in his gloved hand, stepped to where Sullivan sat, and offered to bet that amount he would not be knocked out of time. Sullivan declined the offer, saying there was already enough money up on the match. At 9:40 Harry Hill called "Time!" when both men came in full view. Sullivan seemed to tower above his adversary. Wilson has the frame, and that a perfect one, of a fighter. His body is stout, legs short, and arms powerful, although he is not high, compared to Sullivan's magnificent physique. Sullivan weighed 190 pounds; Wilson, 160. The Englishman, although no match for his powerful opponent, showed himself full of pluck. He stood the punishment inflicted by Sullivan, and although knocked down twenty-seven times fought against hope and pummeling and hammering in every conceivable manner, managed to stand out for four rounds and win \$1,000 and his share of the gate money. The time of the battle was fifteen minutes, including three minutes for rest between rounds.

Returns from Iowa on the Prohibition Amendment.

DES MOINES, July 17.

Complete returns from all the counties in the State on the Prohibition amendment give the majority for the amendment as 29,751. The total number of votes cast at this election was 281,381 as against 238,108 for the election for Governor in 1881. The total vote of this year exceeds that of 1881 by 46,275. The total vote at the Presidential election in 1880 was 332,668, or 41,397 greater than the total vote this year. Of the 99 counties in the State 74 gave a majority for the amendment and 24 against it and one a tie.

Australia Mails.

NEW YORK, July 18.

Mails from Australia and New Zealand will arrive at Jersey City tomorrow about the time of the sailing of the Arizona, which is expected to carry them to Europe. The Fruits of a Poker Game.

NEWBERG, N. Y., July 18.

A poker game here in which Mr. Weed lost \$150,000, is causing much trouble. Judge Fullerton, of New York, and Mr. Trade of Chicago, yesterday, acting for Weed, attached the stable of W. M. Hodges, who won the money from Weed. The stable consists of the horses J. B. Thomas, St. Remo, Boy Billy and Novelty, and is valued at \$5,000. A bond was furnished by the friends of Hodges, at the driving park. Scott, Hodges partner in the game, was also taken into custody.

"I Love My Cocktail Good and Strong."

WASHINGTON, July 17.

Quite a stir has been caused in church circles by the publication of a letter from the Rev. McKenney, of Wesley Chapel, charging that whisky cocktails and wines were too freely used at the White House, and that the President habitually goes late to church, because he don't like the church service in use there.

Robinson Wants to Know.

WASHINGTON, July 17.

In the House of Representatives today Robinson, of Brooklyn, N. Y., introduced several resolutions in the

interest of American prisoners in England; also calling on the Secretary of the Navy for the instructions under which Commodore Nicholson threatened to fire on Alexandria; whether American sailors were performing police duty in Alexandria under the British Admiral and by what authority.

FOREIGN.

Arabi Pasha Dismissed—Restoration of Good Order.

ALEXANDRIA, July 17.

The Austrian Consul is the only foreign diplomat who thought it necessary to quit Alexandria. He has gone to Port Said.

It is stated that orders have been received from home enjoining the British to content themselves with maintaining order. A large number of Arabs are returning from the country. Arabi Pasha has appointed Ali Jerme, a notorious Anglo-Pest, to command the Suez canal.

Arabi Pasha has cut the telegraph which connected him with the palace, and by which the Ministry constantly communicated with him. Messengers who have also been passing to and from with documents have been stopped.

An Egyptian officer, hearing of the Khedive's dismissal of Arabi, which perforce has not reached him, says the palace authorities allege they can find nobody willing to convey the document to Arabi, as he would probably behead the officer bearing his dismissal.

LATER—The Khedive has found an officer willing to undertake to carry the decree for Arabi Pasha's dismissal to his camp.

No word can be too strong to eulogize the admirable manner in which all have united to repair the evil effects of the bombardment and render the city habitable. English, American and Greek sailors vie with one another in doing good solid work.

A Compliment to America.

LONDON, July 18.

A leading editorial in the Morning Post says: The behavior of the American Admiral and his men at Alexandria is beyond all praise. Amid diplomatic protests, European concerts and conferences, and naval demonstrations of imbecility, it is refreshing to find a commander who is able and willing, on his own account, to say what he thinks and to do what he says. Sixty marines, physically speaking, could not do much, but there is a way of giving support which quadruples its value. The conduct of the Americans during the night of the alarm that Arabi Pasha was coming, contrasted remarkably with that of the French and Italians.

Matters at Alexandria.

ALEXANDRIA, July 18.

Last night was quiet. The lines now are very strongly guarded. The fires are nearly all extinguished. Police arrangements are thoroughly effective. A correspondent has opened communication with the camp of Arabi Pasha, which his informant says consists of a little over 6,000 men, who are intensely discontented and sur-

rounded by starving women and children. Recruits of the lowest class are still being enticed by Arabi with the promise of unlimited plunder if the force is held together, and the assertion that the English will kill all who return to the city.

The Cruel Arabs.

ALEXANDRIA, July 17.

Admiral Seymour has issued a manifesto, announcing that he has undertaken, with the permission of the Egyptian Government, the restoration of order. Nobody is allowed to leave the town after sunset. During the massacre soldiers set fire to the house of a timber merchant. His maid servant escaped to a garden where she remained, surrounded by fire, the soldiers laughing at her agony and firing at her, but purposely avoiding inflicting fatal injury, preferring to see her burned to death. Finally she rushed through the flames, and though wounded by a bayonet, she succeeded in securing refuge in the ruins where she was discovered by marines and handed over to the Americans.

Falling Together.

PARIS, July 18.

A correspondent of the Times says the idea of a renewal of the close cooperation of France with England has now forced itself upon the French Government. The Cabinet council has adopted a resolution, which is conditional, to this effect, namely: Turkey's reply to the identical note of the powers inviting the Porte to send troops to Egypt. The decision of the Conference and sanction of Parliament is required. The two Governments are now entirely agreed in regard to the terms upon which their forces have undertaken to restore order in Egypt.

More Trouble for Ireland.

DUBLIN, July 18.

It is feared another crisis is approaching. The weather threatens utter destruction to what promised to be the finest harvest ever reaped in Ireland. Heavy and almost incessant rains have laid low many flourishing fields. Potatoes have suffered severely. If the weather improves there may still be hope of recovery.

Hanlon and Ross.

TORONTO, July 17.

Wallace Ross writes that he is ready to row Hanlon five races on five consecutive days; each race for \$1,000 a side; distance three to five miles. Hanlon, speaking of the challenge, says he could not entertain the matter until he ascertained how many would accept his challenge to row five races with 48 hours intervening between each and with five crack oarsmen.

A Kidnaper's Trick.

MONTREAL, July 18.

Last night a 2-year-old child of Melvin, a wealthy gentleman of this city, was kidnapped. The child thief left a note in the pillow demanding \$10,000 as a ransom and threatened the murder of the child if it was refused.

Conference Called.

CITY OF MEXICO, July 18.

It is reported that Herrero, the Guatemalan Minister here, has been invited to meet President Barrios in Washington in connection with the Mexico-Guatemala question.

Burning Out the Americans.

ALEXANDRIA, July 18.

There was an attempt last evening to set fire to St. Mark's building, the headquarters of the Americans in Alexandria.

Reinforcing the Navy.

MARSEILLES, July 18.

All French marines retired from the service who have not served 54 months are ordered to return to the Navy.

The boiler makers' strike at Cincinnati has ended, the employees receiving the advance demanded.

Making His Canvas.

The Silver State of Monday contains this item about one of Reno's foremost citizens: Saturday's Silver State stated that A. Evans, of Reno, was not in the field for Governor, though he would accept the nomination from the Greenbackers. Since then he has developed into a full-fledged candidate, overflowing with patriotism. He left here for his ranch in Clover Valley, bearing a life-sized picture of General Winfield S. Hancock, the hero of Gettysburg, surrounded by the Stars and Stripes, and he hopes to fight and conquer under that banner. Though the owner of the Reno Water Works, he is an anti-monopolist, and will fight it out on that line. Less capable and worse men than he have been elected to higher offices than Governor of Nevada.

Powder-Burned-Careless Trick of an Italian Wood-Chopper.

Pietro Caraglio, an Italian wood-chopper in the employ of Katz & Henry at Verdi, was brought to town this morning with hands and face horribly burned from the explosion of a can of powder. Caraglio had been using the powder in splitting wood, and, setting the can, containing about two pounds, down, concluded to take a smoke. He lighted his pipe and carelessly dropped the burning match into the can, which exploded with the above results. His wounds are very painful, and it will be several weeks before he recovers. He will be more careful next time.

Ice Shipments.

The Summit Ice company at Prosser creek, have shipped 111 cars of ice since July 1st. It was sent to Sacramento, San Francisco, Southern California, Arizona, New Mexico, and even to Texas. The hot weather of the past few days has created a big demand.

INCREASED MAIL SERVICE.

The Mail Service Connecting Reno with the North-Good Work Done by Congressman Cassidy.

Congressman Cassidy and the proprietors of the GAZETTE have been corresponding for several months regarding the daily mail service north from here. Last night's mail brings a letter from Mr. Cassidy conveying the intelligence that his efforts in our behalf have been successful. The following is a copy of Mr. Cassidy's last request that a six-times-a-week service be established:

HOUSE OF REPRESENTATIVES
U. S., WASHINGTON, D. C.,
July 1, 1892.

The Hon. the Second Assistant P. M. General—Sir: In obedience to the universal demand of the people interested, I must renew, in this formal manner, my oft-repeated requests for an increase of service on the mail route running north from Reno, Nevada, to Fort Bidwell and adjacent points in California from one trip per week, as provided in the new contract, to six trips per week. It is now quite generally conceded that the Department committed an error in abandoning daily service on this route for that from Redding in California. On the latter there are two ranges of mountains to cross, which are frequently impassable from the great depth of snow for long periods in winter. The Reno route is entirely free from barriers of this kind, or of any description. The people concerned correctly assert that this is their best, safest and most expeditious route to rail connection with San Francisco. I submit that their wishes and interests in the premises should largely control the action of your Department. The pressure for an increase of service is universal among the people, and is in no way or sense promoted by contractors. I do not ask for expedition, but merely solicit an increase of trips to meet the legitimate requirements of the people and section concerned. Appended, and made part of this application, is the form of a petition setting forth all of the facts in the case, which has been numerously and influentially signed by all of the communities north of Reno to the Oregon line and beyond. I beg to invite your special attention to the same, and also to the further fact, that until the beginning of the present month, service of seven trips a week, on a fast schedule, has been maintained on the same route. Very respectfully,
G. W. CASSIDY, M. C.

The following is the Postmaster-General's reply:

POSTOFFICE DEPARTMENT,
WASHINGTON, D. C., July 10, 1892.

Sir: I have the honor to inform you that, in accordance with your recommendation, the service on Route No. 46,163, from Cedarville, California, to Reno, Nevada, has been increased to six trips a week. This order to take effect August 1, 1892. Very respectfully,
H. D. LYMAN,
Acting Second Assistant Postmaster-General.

The people here congratulate themselves on having a Congressman who pays some attention to their wants. This last order is of incalculable benefit to Reno as well as the northern counties. The line will be restocked by Friday or Saturday, when everything will run as of yore.

Good Children.

The pupils, old and young, of Prof. Ring, late Principal of the Grammar school, intend giving him a grand reception on his return to Reno. A fine entertainment will be arranged to take place at the Nevada Theater, on which occasion the esteemed Professor will be presented with a splendid \$150 gold watch. That is to be his reward for being a worthy guardian of the rising generation. The young people may not like to be "given away," but then it can't be helped now.

Nearly an Accident.

A little precaution on the part of Geo. Brooks, blacksmith for the N. & O. company, prevented what might have been a serious accident at a late hour last night. Knowing the "Santa Cruz" would be late in arriving here, he procured a lantern and hastened to the switch, arriving just in time to prevent a team from being smashed to smithereens by the incoming train.

Suit For Damages.

The Board of Commissioners for the care of the insane have commenced suit to recover from Jacob Klein the sum of \$1,000 damages alleged to have been sustained by the State from Klein's injunction suit restraining the Commissioners from proceeding with the work of building the asylum last Spring.

Accidentally Shot.

Johnson Barbee, Superintendent of the Barbee S. M. Company at Winnemucca, accidentally shot himself in the arm at the Humboldt House last Saturday. He was carrying a loaded shot-gun and some mining drills on a horse when the gun was accidentally discharged.

Safety of Labor.

Never before was labor so scarce in this vicinity as at the present time. Farmers are obliged to work night and day to get their hay crop taken care of. Men cannot be found to work for lover or money. In some instances crops are actually suffering for the want of men.

SAD ACCIDENT.

The Little Daughter of Baker Tetherington Drowned in the English Mill Ditch.

A little 90-month old child, the daughter of Baker Tetherington, fell from a plank walk across the English mill ditch, near Bragg & Co.'s lumber yard about 5 o'clock last evening, and was drowned. It seems the child was in the habit of crossing the ditch with her playmates and going over to the lumber yard to play. Her mother missed her last evening about 5:30 o'clock, and, after looking among the lumber piles, and inquiring of the neighbors, a search was instituted along the line of the ditch. Mrs. Phil Mathews walked down the bank to Chestnut street, near S. M. Beemer's residence, where she found the little one lying with her head on the north bank of the ditch with her body floating in the water. The little upturned face told too plainly that life was extinct. The body was taken to the home of the afflicted family, a physician summoned and every remedy applied to resuscitate the little one, but it was of no avail. Mr. Tetherington has only been here about three months. The family came here from Honey Lake Valley, where they are highly respected. The funeral of little Mattie took place to-day at 2 o'clock.

Church Entertainment.

There will be a musical entertainment at the Congregational Church to-morrow evening. At the close of the musical programme refreshments will be served for all who wish them. Admission 10 cents. The entertainment has been gotten up for the benefit of Miss Flora Finlayson, who has been exceedingly kind in rendering assistance on several occasions. The programme will be published to-morrow evening.

Refused Admittance.

The member of the Break-beam Brigade, who had his right heel pinched off under the wheels of a freight train at Battle Mountain yesterday, was brought to Reno last evening. The authorities refused to admit him to the County Hospital, and this morning he was returned to Winnemucca, where he will become a patient in the Humboldt county poor-house until he recovers.

Taken In.

The two tramps supposed to be guilty of shooting at the men on the engine at Wadsworth Saturday evening during the tramp war, were arrested at Verdi last night by B. F. Bacon, who was instructed to "take them in" by the Wadsworth official. They were brought down on the train this morning and lodged in the county jail.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses other nourishment the Extract will prove an excellent substitute for food. It neither sours upon the appetite nor offends the taste.

DELICATE FEMALES, who suffer from the weakness of their sex, will derive lasting relief from its use. It improves the digestion, purifies the blood, stimulates the appetite, and revivifies the system.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restorative—and especially those who are afflicted with indigestion and its attendant troubles—will find it a specific for their needs. It is a specific for the Coughs, Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORE it possesses the highest merit. The whole tendency of its action is to stimulate the digestion of food, and to build up the system, and to give fullness and roundness to the female form, and robustness to the masculine frame.

THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, agreeable to the taste, and free from alcohol. It is the most valuable and nourishing ingredient in the preparation of beer, and is a food of the highest quality. It is a pure and wholesome food, and a tonic of the highest value. It is a specific for the Coughs, Nervous Affections usually incident to a low state of the system.
